Mr. H. Hagins, of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. A thorough investigation, made by the Superintendent of the White House, disproves the story that an elderly, presented to Mrs. Hayes by the W. C. T. U., fell into the hands of a saloonkeeper at the recent auction sales of old White House furniture. The story caused general indignation among the members of the W. C. T. U. in the United States.

Nearly Forfeits His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. R. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for Burns, Bruises, Sain Emptions and Piles. 25c at all Drug Stores.

A Monticello dispatch says: The tool dresser at the well brought in on the Young farm, accidentally fired the gas with his lantern and was badly burned and had to jump into the creek to save his life. The drifter was also badly burned and the derrick was destroyed.

THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak and deficient in vitality, and clings to the mother's arms with no desire to walk or play.

Mother should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription by expectant mothers gives them health and strength to give their children. It nourishes the nerves, strengthens the body and gives great muscular strength and elasticity, so that the baby's advent is practically painless.

"I have been using Dr. Pierce's Favorite Prescription, and can say it is just what you advertise it to be, and can cheerfully recommend it," writes Mrs. Victor J. Hadin, of Leominster, Mass. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one he had seen (as I was sick only about three hours), and also that your 'Favorite Prescription' was 'the one patent medicine' which he did have faith in."

"We now have a darling baby boy, strong and healthy, who weighed nine pounds when born (July 25th). During this month he has gained three and one-half pounds."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

MR. LOGAN R. HUGHES

Is perhaps the busiest man in town. He practices law, does a big collecting business, teaches school, gives a good deal of his time to the furniture business of the Withers Furniture Co., of which he is a full partner, is secretary and general manager of the Central Kentucky Real Estate Exchange & Title Co., is city clerk and agent with Supt. Garland Singleton for the Mutual Life Insurance Company, of New York. With so many irons in the fire it looks like he might let some of them burn, but he does not. Each business is carefully looked after and he is successful with them all. Stanford has few better business men or citizens than "Logan," as he is familiarly called, and certain we are that he has no more deserving or cleverer young man.

We had a hard time getting him to sit still long enough to "catch his shadow," but we got a pretty fair likeness, notwithstanding.

JOHN SAM OWSLEY, JR.

COL. A. K. MCCLURE, of Philadelphia, is one northern man who takes a correct view of the Negro question. In an address at New Orleans, he said, with truth and sense: "If we could only get men in public places, from the president down up, to understand that the people of the south are the only people in the world who can solve the race question, and leave it to them to solve it in their own way, as they have done so far, and surely will do in the end, it will be solved with due regard to the interests of the black man, who is indispensable to the whites, and it will be solved so that it never can be revived again. It is the last question left, and apparently whenever a politician has exhausted all of his other political assets, he starts anew on the question of disfranchisement of the Negro." President Roosevelt has done more to unsettle race conditions in the south than can be cured in a decade. He may think himself a friend of the Negro, but his course proves he is his greatest enemy.

It is not generally known that the country is doing a thriving trade in idols. Idols made in America are found to be much more satisfactory than the pauper-made goods of Birmingham. The heathen admires Yankee enterprise in this trade and their orders are increasing in number and quantity. An American-made idol, representing the African deity Bumbum, sells readily for two elephant tusks. Some of them are able to wink one eye at a time, to frown, smile and yawn. A great many of these superior idols are going into the interior of Africa. The Chinese, Burmese and Afghans are eager buyers of our gods. They testify that better results accrue from prayer to a Yankee idol than from those imported from England or Germany.

PERHAPS the most remarkable pension application ever presented in Congress is that embodied in a bill introduced by Congressman Pearce of Maryland. It recites with great gravity and a wealth of circumstantial detail that the applicant when a child in arms in 1861 was so frightened by Yankee invaders in Maryland that he became paralyzed and has never been able to do any work. There is talk of awarding Congressman Pearce some kind of a championship in view of the originality of his bill, but he should be given a leather medal instead.

IN a lecture at Boston President Frost, of Berea college, defended and praised the Negro and literally lauded him to the skies. Nothing better can be expected from the head of a college, which does not draw the color line and in which the Negro is given the best of everything going. Berea college is perhaps a well managed institution of learning, aside from its social equality weakness, but Kentucky would be a grander State to many people to day if that college were not in it. It should be moved up North, where it properly belongs.

KING EDWARD has personally notified President D. R. Francis that he would exhibit the priceless collection of presents, received by Queen Victoria during her jubilee, at the Louisiana Purchase Exposition. The exhibit will be the King's personal contribution toward the success of the exposition.

THE Mississippi State Register is the name of a new paper just launched. It is republican in politics, edited by James Hill, colored, and will oppose Mr. Roosevelt as vigorously as the types can be trained to put it. Teddy should give Hill a fat office and make him stop his foolishness.

IT turns out that Mr. John K. Hendricks was a Palmer and Buckner man; it is more than probable that Gov. Beckham is ineligible, but there's not a thing the matter with grand old Judge Breckinridge, of Danville. Nominate him and his call will be an election sure.

MT. VERNON.

Long distance telephone lines will be put through here in the summer.

The oil well being drilled at Conway has reached a depth of 200 feet. Machinery for another outfit will arrive here at an early date.

The Mt. Vernon Drug Co. has opened in the store house lately vacated by C. C. Davis. Dr. J. M. Williams is one of the proprietors.

A daily except Sunday mail route will be established between Mt. Vernon and Wildie April 1. Those living along the route desiring the convenience, can receive mail at their homes by furnishing the proper boxes.

C. C. Williams put in most of last week at London court. J. W. Brown and others took in the closing ball at Riverside Mansion, Livingston. The Mt. Vernon orchestra furnished the music. The mother of S. C. Franklin is seriously ill of rheumatism.

The small-pox situation in the county has been well managed by the health board. There have been no deaths and the disease is disappearing. But few new cases within the past few weeks and they were out in the county. There is none in the town or villages.

The examining trial of Henry Hellard for killing Abe Drew near Cooksburg, is set for Saturday at this place. Hellard and Drew had been at outs for some time over some moonshine cases against the latter, in which Hellard was a witness. It is alleged that Drew went to Hellard's home and attacked him, which brought on the tragedy.

POLITICAL.

Chances for the passage of the Statehood bill this session have gone aglimmering.

Through Postmaster General Payne, the President has again called attention to his policy in giving old soldiers the preference in making appointments, other conditions being equal.

Secretary Cortelyou recommends that \$600,000 be appropriated for salaries for the new Department of Commerce and Labor. He asks for \$7,000,000 for the building, exclusive of the site.

The democratic members of the House will systematically oppose all future legislation. This action will be taken by way of retaliation for proposed unseating of Representative Butler, of Missouri, by the republicans.

The Virginia State Senate passed a bill, prepared at the suggestion of the Attorney General and the Governor, providing for an increase of the appropriation to defend the suits brought by Negroes to test the validity of the Constitution. The bill amends the bill passed last December and increases the amount from \$5,000 to \$10,000.

M. E. Ingalls, president of the Big Four railway system, has announced that he will accept the democratic nomination for Mayor of Cincinnati. His decision is regarded as significant in that it probably will be followed by his candidacy for Governor of Ohio and, possibly, for the presidency of the United States.

During the discussion of the Post-office Appropriation Bill in the Senate Senator Tillman spoke for about two hours on the Indiana post-office case. During his remarks he suggested that republicans carry out their policy of Negro equality by putting a Negro in the Cabinet, and said: "I will vote to confirm Booker Washington as secretary of anything."

COURT-HOUSE CONDEMNED.

The Grand Jury Pronounces It Unsafe and Recommends Prompt Action by the Fiscal Court.

The subjoined report of the grand jury touching the court-house will tend to increase the apprehension which has been felt the past few years about the safety of its walls and cupola. We understand that if the report had gone more largely into detail as to the timbers which support the tower, it would have shown that structure to be so dangerous that it would look like "flying in the face of Providence" to be close about during a storm. Doubtless the fiscal court will take such action as it lawfully can without delay.

To the Lincoln Circuit Court: The grand jury of the Lincoln circuit court empaneled at the February term 1903, charged by law with the duty of inspecting the public buildings of the county, respectfully report that they have performed that duty with reference to the jail and court-house. The jail appears to be in good condition, kept in a cleanly manner and is reasonably safe. Its sanitation is as good as its structure will admit.

We are, however, forced to make a different report in regard to the court-house. The walls are sprung and cracked and are gradually, but obviously giving way. This, any one can see by examination. There is nothing to prevent the spreading of the walls of the circuit court room except iron rods running through to keep the walls in place. The accumulation of earth and debris between the north wall of the main building and the jail is gradually bringing the surface of the earth above the level of the door step of the hall, and as a result, the lower floors are damp and unhealthy, the flooring is sprung and the vaults which contain all the public records are damp and mouldy.

We went into the tower which contains the bell and clock. Our information is that the weight of this structure with the bell and clock added, is about 25,000 pounds. The timbers which form its chief support are rotten and in a dangerous condition. On account of the wind which shakes the tower whenever it blows, it is impossible to prevent the leaks in wet weather, and being constantly subjected to the action of the rains the whole structure is very badly out of repair. We regard it as a menace to the safety of those who are required to be habitually in the court-house, and it is certainly hazardous for any one to be in the building in time of a storm.

We therefore, condemn the court-house, and request that the judge of the circuit court certify this report to the fiscal court of Lincoln county for such action as that court may see proper to take.

We further report that the present building contains no room either for the county attorney, the superintendent of schools or the master commissioner, and we are informed that the county is now paying \$150 per annum rent for two of these offices.

The sheriff's office is practically uninhabitable. It is lighted by only one window, smokes badly and is so constructed that the stove pipe runs through the county judge's office. The sheriff has been forced to occupy a room with the circuit clerk and has not occupied the room set apart for him for many months. This grand jury therefore reports that true public economy and an honest discharge of duty requires the fiscal court to act on the matter herein set forth without avoidable delay. S. A. Middleton, foreman; R. C. Nunnally, J. G. Baugh, W. Landgraf, C. L. Gouch, Josh Wilson, Logan Bryant, J. D. Anderson, Garland James, J. M. Bell, J. F. Shaw, R. C. Hocker.

As the court-house has been con-

demned by the grand jury and to repair

it and make it safe would necessitate a

big outlay of money, it seems to us that

the best thing the fiscal court can do to

torn down and a new one erected. This

would take money, of course, but the

means would be more judiciously ex-

pended than it would be in patching up

J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cured by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it is possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.
